

promeos® GmbH is an innovative and family-friendly high-tech company with around 45 employees in Nuremberg and customers from all over the world. To strengthen our team, we are looking for a full-time experienced

# DESIGNER (m/f/d)

## Your tasks:

-  You design special systems and provide the necessary design documents (parts lists, production drawings)
-  In a team, you develop concepts for plants and subsystems
-  As an interface between the departments of project planning, procurement and production you act as an important contact person

## Your profile:

-  At least five years of relevant professional experience
-  Experience in industrial furnace construction/thermal process technology desirable
-  CAD user knowledge in Creo Parametric 2.0 is desirable, alternatively experience in comparable 3D CAD programs
-  Your way of working is structured, independent, committed and reliable
-  Good team and communication skills round off your profile

## Our offer:

Look forward to an interesting and varied working environment in an international and young team. We offer you good professional development opportunities as well as the transfer of varied and responsible tasks.

## Interested?

Do you feel addressed? Then convince us with your complete and meaningful application by e-mail. Let us know your earliest possible date of entry as well as your salary expectations. We look forward to meeting you.
