

promeos[®] GmbH is an innovative and family-friendly high-tech company with around 30 employees in Nuremberg and customers from all over the world. With our innovative heating solutions and our know-how, we support our customers on their way to decarbonisation.

To strengthen our team, we are looking for a full-time experienced

Electrical Engineer (m/f/d)

Your tasks:

- As part of a team, you will develop (electrical) concepts for plants and subsystems and design these in detail
- Selection of suitable switchgear, electrical components, drive systems and programmable logic controllers
- You will create circuit diagrams in EPLAN P8
- Programming and commissioning of the systems in-house and on-site at the customer's premises
- As an interface between the project planning, procurement and production departments, you will act as an important contact person for the electrical engineering of our systems.

Your profile:

- 🔗 Completed technical studies in electrical engineering or mechatronics or comparable training
- 🔗 Gladly career starters/graduates
- 🔗 User knowledge of EPLAN P8 is desirable
- 🔗 User knowledge of Siemens TIA Portal desirable
- 🔗 You work in a structured, independent, committed and reliable manner.

Our offer:

You can look forward to an interesting and varied working environment in a diverse team. Our flat hierarchies and short (communication) paths guarantee a direct effectiveness of your work. We offer good professional development opportunities as well as the assignment of varied and responsible tasks. Fair pay and flexible working hours go without saying and offers such as sports facilities and subsidized bicycle leasing round off our range of benefits. This opportunity is also available to those just starting out in their careers.

Interested?

Are you interested? Then we look forward to getting to know you in an interview. Please send us your CV or a link to your informative online profile.
