

# DOSING FURNACE

## BEST PRICE GUARANTEED

**HEATELLIGENCE FOR TOMORROW:**  
Take your casting processes  
to a new level - with best price  
and short delivery time guaranteed!

- **Delivery** in only 8 – 10 weeks from order
- **Compatible with all makes of die casting machines:** control, dosing and communication
- Choose the right solution from **various models**

### YOUR THERMAL PROCESS

**HOLDING &  
DOSING**

**620 – 780 °C**

**LEADING  
TECHNOLOGY**

**MAXIMUM EFFICIENCY**

**IOT-READY**

**GERMAN ENGINEERING**

**PRIORITY ON  
SUSTAINABILITY**

**GREEN ELECTRICITY**

**OUR TECHNOLOGY**

- **Low energy consumption** thanks to pressure-controlled dosing - compatible with other melt transport systems
- **SIEMENS control electronics** incl. PRO-FIBUS/PROFINET
- **SMC pneumatics**
- Integrated logging functionality
- **Holding capacity:** 500 kg – 3700 kg
- **Heat output:** 18 – 72 kW
- **Temperature range:** 620 – 780 °C
- **Dosing capacity:** 0,1 up to 100 kg
- **Dosing precision:** +/- 1.5%

**HIGH PRODUCT QUALITY**

High quality steel construction, masterful insulation and components from brand manufacturers .

**BEST PRICE**

Very attractive conditions for your investment - no compromises on quality and performance.

**SHORT DELIVERY TIMES**

We promise you short planning and production times for your project.

**RELIABLE OPERATION**

Robust construction and fast customer service from promeios guarantee high operational reliability.

**IMPRESSIVE PERFORMANCE AND QUALITY**

High melt quality, dosing precision and minimal metal losses thanks to closed and safe system.
