OUR TECHNOLOGY

HEAT TREATMENT FURNACES PERFECTLY CUSTOMIZED TO YOUR REQUIREMENTS:

- Bogie hearth furnaces
- Chamber furnaces
- Drop shaft furnaces
- chest furnaces
- Continuous furnaces
- Bell furnaces
- Heat treatment for iron, steel and the NF industry
- High energy efficiency thanks to state-of-the-art heating technology with gas, electricity or hydrogen (admixture)

IMPRESSIVE PERFORMANCE

Homogenous and precise heat treatment according to automotive and aerospace standards.

RELIABLE OPERATION

Robust construction and fast customer service from promeos guarantee high operational reliability.

HIGH PRODUCT QUALITY

High quality steel construction, masterful insulation and components from brand manufacturers.

BEST PRICE

Very attractive conditions for your investment – no compromises on quality and performance.

SHORT DELIVERY TIME

We promise you short planning and production times for your project.
